Proposal for changes

Comment number	1		
Date received	27/03/2018	Lab name/Professional body	Nottingham University Hospital
Section	Section 4		
Comment			
Section 2 has the agglutination order of slide, microtitre tray and tube. This order changes in section 4 to Microtitre tray, slide then tube - suggest keep in same order for ease of use. The images for the slide are not on P11, but appear on P12 in the tube agglutination section.
