

Advances in Transfusion Medicine Symposium

There are exciting ongoing developments in transfusion medicine and science with high-quality research supporting evidence-based practice. This virtual meeting will be held over 2 half days and has been organised on behalf of the Royal College of Pathologists in collaboration with the Serious Hazards of Transfusion (SHOT) UK Haemovigilance Scheme. The meeting brings together experts from various clinical disciplines with leaders in transfusion science to provide an update on key developments. The meeting will be of interest to all those involved in transfusion medicine.
